

CSE 4643

Mobile Application Development

Lab No: 01

**Name of the topic: Creating a Simple Addition, Subtraction,
Multiplication and Division Application**

Fardin Saad

Lecturer, Department of CSE

December 28, 2021

Task Assignment

[10 marks]

Create an Android application with 4 buttons which will have features like Addition, Subtraction, Multiplication and Division respectively.

You will take input in two EditText fields and display the result in a TextView. Styling and making the application user friendly should be a priority.
