

CSE 4643
Mobile Application Development

Lab No: 02
Name of the topic: Design your own Login Application

Fardin Saad
Lecturer, Department of CSE

January 24, 2022

Task Assignment

[10 marks]

You are required to design a Login Application of your own design. The login button should take you to a second activity. Customize your second activity according to your preference. Besides this, you have to **add another activity** in your second activity which will take you to a 3rd activity. So you have to build a login application with a total of 3 (or more) activities.
