

**Dept. of CSE, Islamic University of Technology.**  
**Pattern Recognition: CSE 4835/36, Summer 2022**  
**Guidelines for the final project presentation**

- **Date of presentation:** 21/5/23 at 9 AM.
- **Deadline for report:** 2 hard copies should be provided during the presentation
- **Time per group:** 15 minutes (max)
- **I'm expecting:** Full implementation of the promised work with a report containing an analysis regarding the project.
- **Weight of implementation:** Major portion of marks in CSE 4836
- **Weight of report:** Some portion of CSE 4836 & 1 Quiz in CSE 4835
- **The report must contain the following sections:**
  - i. Abstract
  - ii. Introduction
  - iii. Literature Review
  - iv. Methodology (Data acquisition, preprocessing, proposed method)
  - v. Experimental Setup
  - vi. Result analysis (necessary visualization of the result, tables, comparison with existing methods, [ablation study \(if possible\)](#), [error analysis](#), and so on)
  - vii. Conclusion and Future Work
  - viii. References

(There will be fixed marks in each of the sections. Methodology and Result analysis cover a significant portion of that mark.)

- **Format of Report:** [IEEE conference LATEX template](#) or similar standard template for a good quality conference. (font family and font size should follow the standard template).
- **Report Length:** Minimum 6 pages (no max limit).
- **Plagiarism checking:** 'Turnitin' will be used for plagiarism detection.
- **The penalty of plagiarism:** Starting from deduction of marks for that section to maximum cancellation of the entire report.
- **What to show during the presentation:**
  - i. A PowerPoint presentation to walk through the judges from scratch of the project to the end result.
  - ii. Pre-compiled Code of all experiments/result analysis.
  - iii. Anything relevant to justify any claim.
- Each Presentation will be followed by a Q/A session.

Regards.

Sabbir Ahmed

Assistant Professor, Dept. of CSE, IUT.
