

ISLAMIC UNIVERSITY OF TECHNOLOGY (IUT)

ORGANISATION OF ISLAMIC COOPERATION (OIC)

Department of Computer Science and Engineering (CSE)

Course: 4108, Lab Task 10-1b

Prepared By – Talha Ibn Aziz (Lecturer, CSE)

Subtasks (marks):

1. Create two text files containing a paragraph (each), read the contents of the files and show it on the screen, i.e. the console. (5)
2. Provide three names of text files through argument of main function using command prompt. Read the contents of the first two files and write them in the second file. (10)

Sample Case:

Subtask 1:

text1.txt

```
This is the first text
file and contains this
information. The name of
this text file is
text1.txt
```

text2.txt

```
This is the second text
file and contains the
following information.
The name of the text file
is text2.txt
```

In

Subtask 2:

command

prompt:

```
➤ program_name text1.txt text2.txt output.txt
```

output.txt

```
This is the first text file and
contains this information. The
name of this text file is
text1.txt
This is the second text file and
contains the following
information. The name of the
text file is text2.txt
```
